

Pullen Services is a full-service environmental, health and safety training, compliance and consulting company. We began conducting business in October 2008.

With a reputation of excellence, Pullen Services provides a variety of safety services as we work with clients to develop a comprehensive health and safety program. That can involve updating existing documentation, policy and practices. Including the complete development of a health and safety policy and a program of safety training and recordkeeping.

We offer a wide range of training programs designed to meet the demanding requirements of the industrial, construction and business workplace and can create a program to meet your specific training needs.

Training is offered at our training location in Casper, WY. We also work with our customers to provide on-site training and services.

Training and Consulting Services include but are not limited to:

- Design and Implementation of Company Safety Programs
- Drug and Alcohol Policy Development/Implementation
- Third Party Prequalification Provider Assistance
(ISN, PEC Premier, Avetta/Browz, etc.)
